SonataSuite

Recordings

Manage and organize all your call recordings for easy searching and reporting.

Add crucial and helpful information to all your call recordings

Separate extensions by teams, add flags, reference numbers, and notes.

Create reports based on multiple criteria

Get specific call recordings and export them with an interactive PDF for easy use offline.

Convert call recordings from wav to mp3 files for better storage management

Move them to mounted network storage or through FTP for external storage of the files.

Delete Old and Short Recordings

So, you can eliminate recordings older than N number of days, and shorter than N number of seconds long.
